# 3 STAGES

3 ÉTAPES – 3 ETAPER

# STAGE 1

Copenhagen | 1-07-2022

Tour de France 2022 starts off with a 13 km individual time trial. The world's best riders take on the streets of Copenhagen in a fight for the yellow jersey. The flat route through the Danish capital and world's best cycling city has no sharp turns, letting the riders gain full speed. For TT specialists dreaming of a stage win and a yellow jersey, aerodynamics are key through the entire stage. The GC favourites will work hard to reduce the time loss.

## 1<sup>re</sup> étape

Copenhague › Copenhague

13 km

C.I.m individuel

Les premiers coups de pédales de ce Tour de France 2022 s'effectueront en solitaire sur un contre-la-montre de 13 km. Le parcours urbain tracé dans Copenhague devrait favoriser les meilleurs rouleurs du monde et c'est l'un d'entre eux qui devrait revêtir le premier Maillot Jaune. Les larges avenues planes de la capitale et les virages peu prononcés permettront d'atteindre des vitesses très élevées. Pour espérer s'imposer, il faudra être capable d'emmener de grands braquets tout en adoptant une position aérodynamique tout au long du parcours. Pour les favoris du Tour, l'objectif consistera d'abord à minimiser la perte de temps.

## 1. etape

København › København

13 km

Enkeltstart

Tour de France 2022 skydes i gang med en 13 km lang enkeltstart i verdens bedste cykelby. Københavns gader bliver indtaget af verdens bedste cykelryttere, som kommer til at kæmpe om løbets første gule trøje. Den flade rute gennem hovedstadens brede gader uden skarpe sving giver mulighed for fuld fart i pedalerne. Skal rytterne gøre sig forhåbninger om en etapesejr, er kodeordene højt gear og aerodynamisk holdning gennem hele etappen. For Tour-favoritterne er målet først og fremmest at begrænse tidstab.

### **Copenhill**

Spectacular and innovative in the true sense of the words. That's CopenHill - the artificial ski slope and recreational hiking area opened in the fall 2019, built on top of the new waste management centre. The new architectural beacon is designed by Bjarke Ingels and is visible from most of Copenhagen, just as there is a magnificent view of Copenhagen from the top.

### **Havneringen**

The ultimate Copenhagen walk can be found along the edge of the harbour, where trails, sidewalks and bridges together create the 13 kilometres long walking- and biking path - the Harbour Circle. If 13 kilometres sounds like too big of a commitment, the route is designed so you can do shorter chunks of the route of 2, 4 or 7 kilometres.

The Children's Traffic Playground is a perfect place for young and older kids to learn about road safety and traffic rules. To provide realistic traffic simulation, the playground features traffic lights, road signs, road markers, bike paths, petrol stations, and much more.

# STAGE 2

Roskilde–Nyborg | 2-07-22

 First, the riders go through picturesque landscapes along fjords and over hills to end up at the Great Belt Bridge for the last 20 km of the stage. The wind will play a defining role when the riders cross the belt. Team captains will need to rely on the collective strength of their team and the devotion of their teammates. The peloton is expected to be split up before crossing the finish line in Nyborg. Time losses will determine who gets the yellow jersey and impact the GC going forward. The stage victory, however, could very well go to the strongest sprinter of the peloton.

# 199 KM

 **2<sup>e</sup> étape**  
**Roskilde › Nyborg**  
**199 km**

Après avoir traversé des paysages pittoresques, longé des fjords et escaladé quelques collines, les coureurs auront à franchir dans les vingt derniers kilomètres de l'étape le pont du Grand Belt. Le vent jouera alors un rôle majeur au moment de traverser le détroit. La force collective des équipes et le dévouement des équipiers seront alors primordiaux pour défendre les intérêts de leurs leaders. A priori, le peloton devrait se présenter morcelé sur la ligne d'arrivée à Nyborg où les écarts enregistrés compteront pour l'attribution du Maillot Jaune et déjà énormément pour le classement général final. La victoire d'étape ne devrait pas échapper à un sprinteur hyper-résistant.

 **2. etape**  
**Roskilde › Nyborg**  
**199 km**

Rytterne kører først gennem maleriske landskaber langs fjorde og over bakker for på etapens sidste 20 km at køre over Storebæltsbroen. Når de krydser bæltet, kommer vinden derfor til at spille en helt afgørende rolle. Holdkaptajnerne må således sætte deres lid til holdets kollektive styrke og opofrelsen hos den enkelte rytter på holdet. Det forventes, at det bliver et opsplittet felt, der krydser målstregen i Nyborg, og at tidstabene får stor betydning for, hvem der må køre videre i den gule trøje, og for det endelige samlede klassament. Sejren kan meget vel gå til en af de stærke sprintere i feltet.

## **The Great Nature at the Great Belt Bridge**

The world's third longest suspension bridge is the centre of the Great Belt. Along the breath-taking coastline of Nyborg, you can go for a bike ride or take a swim in the cleanest waves from one of the many inviting, sandy beaches. Unwinding with a walk at Knudshoved will offer a stunning, panoramic view of the incredible nature and the vast Great Belt Bridge.

## **MUSICON**

Roskilde's creative district is located in a former industrial area, which today houses RAGNAROCK, eateries, a micro-brewery, creative entrepreneurs, and Roskilde Festival Højskole. RAGNAROCK's iconic gold-cut facade sets the scene for the museum, which tells the story of pop, rock and youth culture in Denmark.

# STAGE 3

Vejle–Sønderborg | 3-07-2022

 The stage starts in hilly terrain before the route takes the riders south. The Danish riders will without a doubt try to make it in the breakaway and prove their worth in front of the home crowd. The second part of the stage has no major challenges, and there are good chances of avoiding any strong winds. So, the stage should be a treat for teams who can organize a well-prepared mass sprint. The broad streets and flat terrain favour the fastest sprinters who are expected to fight for the stage win.

 **3<sup>e</sup> étape**  
**Vejle › Sønderborg**  
**182 km**

Après les premiers kilomètres en terrain vallonné, les coureurs prendront la direction du sud et il y a fort à parier que les coureurs danois en profiteront pour tenter de s'échapper et briller devant leurs supporters. Cependant, le parcours sans difficultés majeures dans la seconde partie de l'étape et quasiment toujours protégé du vent devrait permettre aux équipes de sprinteurs de préparer l'emballage final dans les meilleures conditions. Les larges routes plates près de Sønderborg seront propices à une grande confrontation entre les coureurs les plus rapides du peloton.

 **3. etape**  
**Vejle › Sønderborg**  
**182 km**

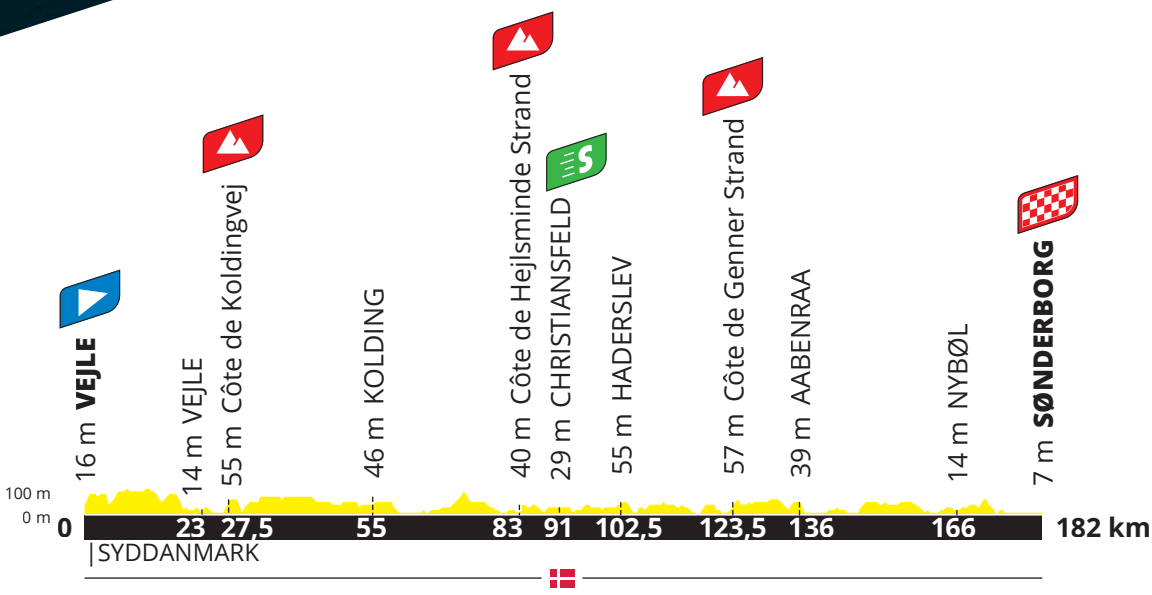

Etapen starter i kuperet terræn, hvorefter ruten går sydpå. De danske ryttere i feltet vil uden tvivl forsøge at komme i udbrud og bevise deres værd foran deres hjemmepublikum. Anden del af etapen byder ikke på de store udfordringer og køres næsten helt i læ, hvorfor etapen bør ligge til sprinterholdene, som må satse på en velforberedt slutspurt. Forholdene med de brede gader i fladt terræn omkring Sønderborg er særligt gunstige for de hurtigste af feltets ryttere, der må ventes at kæmpe om sejren.

# SIGHTSEEING IN VEJLE & SØNDERBORG

## Experience the beauty of Vejle - on two wheels

The beautiful, grand and contrasting nature of Vejle is best experienced from the seat of a bicycle. A web of bike trails, signposted cycling routes and experiences weave the area together. When it comes to hills, gradients and vertical meters, Vejle offers the best routes for cyclists in Denmark.

## Jelling Mounds (UNESCO) - Denmark's birth certificate

The Jelling Mounds are among the most significant monuments in the world and they are included on the UNESCO World Heritage List. The Danish nation was born and created in Jelling. The museum centre Kongernes Jelling - home of the Viking kings is located in the centre of the historic area and offers a unique and supremely modern digital sensory experience.

# A CYCLING NATION

# A COUNTRY OF EVERYDAY BIKING

**Denmark is one of the world's greatest cycling nations. We are therefore very honored and excited to welcome the world's greatest cycling race, Tour de France, to Denmark.**

In Denmark, cycling is our heart and soul. We may have been Vikings once, but we are certainly Bikings today. Everyday cycling is a way of life in Denmark and part of our DNA. We bike to school and work. We bike to the beach and we bike in our spare time. In Denmark school children, young and old bike every day. And sometimes you can even find princes and prime ministers on a bike. In 2022 we all come together

to celebrate our everyday world of cycling by hosting the Tour De France for the first time ever in Denmark.

We want to create the most unique start of the Tour de France ever. In 2022 we will throw a huge party, cover Denmark in yellow and invite the whole world to join and experience a country of everyday cycling - where cycling provides a green, sustainable, fun and healthy way of living.

*Welcome to Tour de France Grand Départ Copenhagen - Denmark.*

# DANISH

## CYCLING FACTS

Denmark has 11,000 km of designated cycle routes.

In the capital, there are 736,000 bicycles, and 42% of all trips to work and education in Copenhagen are by bicycle.

Denmark has a long and proud tradition of everyday cycling. Cycling makes up 23% of trips to work and education in Denmark.

On average, Danes cycle 1,4 kilometres a day.

The combined distance cycled by cyclists in Copenhagen every day covers the equivalent of 400 Tour de France races. That is 1,460,000 km on a weekday.

Denmark has extensive experience in hosting major international sporting and cycling events. Denmark hosted the Road World Championships and the BMX World Championships in 2011. Hosted the start of the Giro d'Italia in 2012, the Road World Championships for Amateurs in 2015, the European Road Championship 2017 and the Cyclo-cross World Championships in 2019. And the annual "Post Nord Danmark Rundt", a 5 stage race which is part of the UCI Pro Tour.

Copenhagen has been named the world's most bicycle-friendly city in 2017 and 2019.

Copenhagen has 386 km of cycle tracks and 64 km of Green Cycle Routes, 35 km Cycle Superhighways and 14 cycle and footbridges. In several cities abroad, the cycle tracks separated by curbs are called 'Copenhagen lanes'.
